GREER

Again it is with pleasure we send out our price list and wish to thank all our friends and customers for their fine support and loyalty over these many years.

It is my aim to send out clean stock true to name, and will stand back of my bulbs.

Please order early and we will ship when danger of frost is past. Prices are about same as last year with a little drop in newer varieties.

Bulb sizes—We list in large $1\frac{1}{4}$ inch up; medium $\frac{3}{4}$ to $1\frac{3}{4}$; small $\frac{1}{2}$ to $\frac{3}{4}$ inches. Bulblets per package, also by $\frac{1}{2}$ pint and up. Will give generous packages, according to the price of bulbs. Plant bulblets as early as you can work the ground and you will be surprised at the size of bulbs you can grow from bulblets.

We do not accept orders for less than \$1.00. Will ship as soon after March 15 as weather permits.

Inspection No. 725.

Terms—Cash before delivery, 5 bulbs at 10 rate; for instance 10 bulbs for 75c, 5 may be had for 38c.
